

## Rhododendron (Y) 'Polaris'

|                       |                                               |
|-----------------------|-----------------------------------------------|
| Height                | 1-1,5 m, slow growing                         |
| Width                 | 1-1,5m                                        |
| Crown                 | round/spherical, dark, dense crown            |
| Leaf                  | green, evergreen                              |
| Flowers               | flowers in May                                |
| Spines/thorns         | None                                          |
| Toxicity              | has toxic components                          |
| Soil type             | loamy soil, sandy soil, peaty soil, acid soil |
| Paving                | tolerates partial paving                      |
| Winter hardiness zone | 5b (-26,0 to -23,4 °C)                        |
| Other resistances     | resistant to frost (WH 1 - 6)                 |
| Application           | tree containers, roof gardens, patio gardens  |
| Shape                 | yakushmanum hybrids                           |

This rhododendron has a compact habit, but grows wider and already has lots of flowers in young plants. The flowers are pink-red, with darker colours in the bud.
